Yesterday and the day before you were told of a company being organized to get OIL by some of the biggest and most successful El Paso business men.

These men tell you that they have unbounded confidence in the property on which they will begin drilling very shortly. The company they have formed owns its rig and it will be ready for work inside of 30 days under the personal supervision of Mr. J. A. D. Smith, a prominent and practical oil man, who has been chosen as President of the Company. He is also the head of the big Lone Star Refining Co., whose tank cars you see everywhere.

They tell you that their property is in a proven field because its nearest neighbor is the Roper well, which is producing 6000 barrels-over \$13,000 of oil every day. The great Norwood well is only two miles away and the Emma Terrell well -the biggest of them all—is only two miles and a half away. On every side there are big producing wells.

And having told you this-they invite you to join. They lay the facts before you with confidence. They guarantee you fair play. They tell you they believe-and back their belief with real money—that they will get oil in great quantity.

A limited block of the stock will be sold at a dollar a share. Soon—as drilling progresses—the price will be advanced to \$2 a share. The entire capitalization of the company is only \$200,000. Mail or wire your reservations at once to our office at 102 Pioneer Plaza. Send them on the assurance of these men that your money will be wisely spent for drilling in a proven field.
